

COMPLETE SCHOOL MANAGEMENT ERP

SchoolSpine is a complete school management ERP built to run every part of a school's daily operations from one connected platform. It brings together 15 feature modules, 15 measurable business benefits, and 15 professional services spanning academics, attendance, examinations, fees, communication, transport, inventory, HR, and enterprise security. Administrators, principals, teachers, accountants, and parents each get the tools built for their role, with real-time dashboards keeping every school day visible. Built for single campuses and multi-school groups alike, SchoolSpine scales from one classroom to an entire network of institutions.

SECTION 01

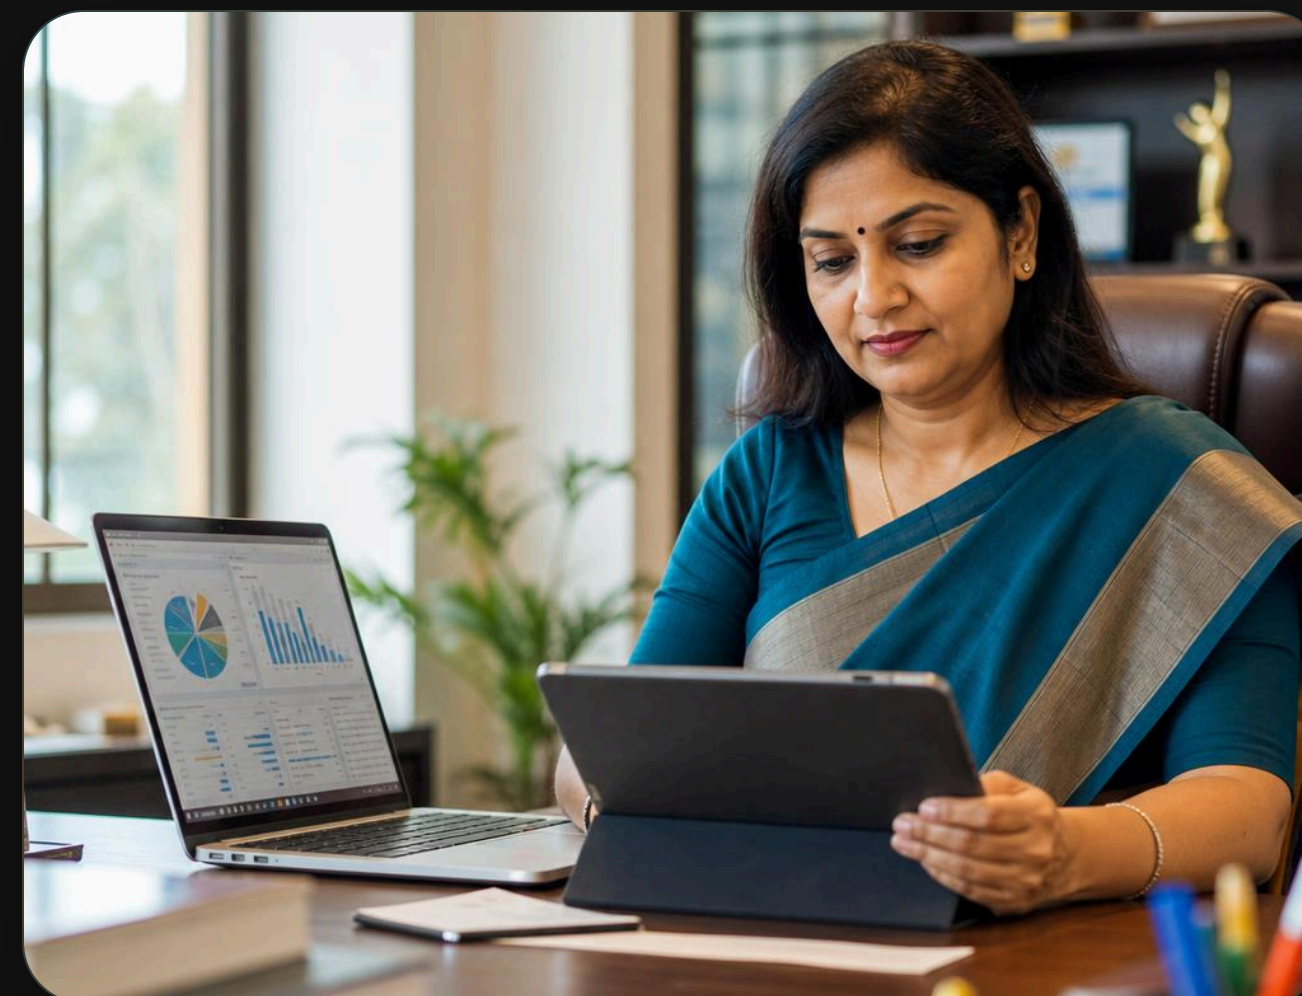

Dashboard, Analytics & Multi-School Admin

One command centre for every school you run.

- Real-time KPIs for student, teacher and staff counts, visible the moment admins log in
- Fee collection status with overdue alerts and recent payments right on the dashboard
- Manage multiple schools and campuses from a single centralized platform
- JWT-based authentication with role-based route protection keeps every login secure

WHY IT MATTERS

Leadership sees the full picture across every school, with automation that centralizes operations and cuts repetitive manual work.

Multi-School ERP

Cloud Hosting & Security

SECTION 02

Academic Management, Curriculum & Timetable

Structure the school year without spreadsheets.

- Create and manage classes, sections and academic-year structure in one place
- Build subject masters and assign them to sections for flexible scheduling
- Generate conflict-free timetables with teacher-to-class period assignment
- Track class performance trends and academic-year statistics as they happen

WHY IT MATTERS

A well-organized academic structure and easy timetable access for teachers, students and parents alike.

Academic & Examination Solutions

SECTION 03

Face Recognition & Attendance Management

Secure, accurate attendance with intelligent verification.

- Face enrollment with a five-image system for reliable biometric recognition
- Face-based attendance marking verified with GPS location
- Manual attendance option backed by a teacher approval workflow
- Real-time alerts for verification exceptions

WHY IT MATTERS

Biometric verification eliminates proxy attendance and keeps records accurate for every student and staff member.

Face Recognition & Attendance Solutions

SECTION 04

Examinations, Grading & Report Cards

From marks entry to report cards, one connected process.

- Full exam lifecycle — creation, configuration and subject assignment for Mid-Term, Final, Mock and more
- Individual or bulk marks entry with an editing and approval workflow
- Automated report card generation, complete with teacher remarks
- Subject-wise analytics, topper identification and grade distribution

WHY IT MATTERS

Automating scheduling, marks entry and grading reduces errors and gives every result a clear, defensible trail.

Academic & Examination Solutions

SECTION 05

Fee & Financial Management

Every rupee tracked, every receipt automatic.

- Dynamic fee structures with customizable components and flexible fee periods
- Single and bulk fee collection with automatic receipt generation
- Outstanding fee tracking with overdue alerts and full payment history
- Parents view fees and payment receipts directly through their own portal

WHY IT MATTERS

Automatic receipts and reports bring transparency to every transaction and every school's finances.

Fee & Financial Management

SECTION 06

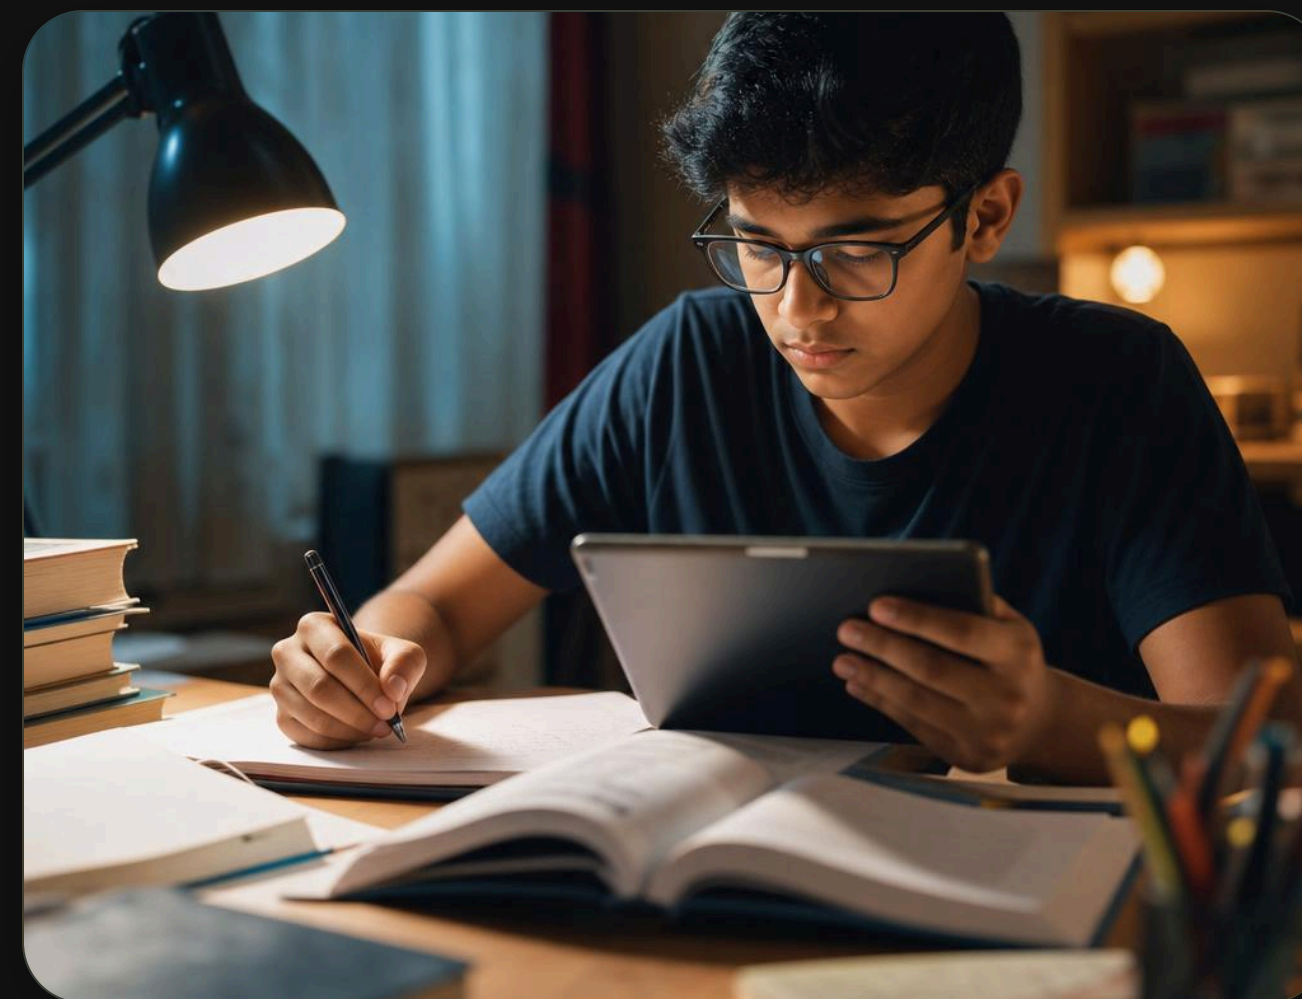

Homework & Student Learning

Assignments that continue past the classroom door.

- Teachers create homework by subject and by class in a few steps
- Principal and admin approval workflow before assignments go out
- Students track assignments and submit work digitally
- Continuous learning support that extends past the classroom

WHY IT MATTERS

Digital homework management keeps students engaged and progress visible long after the bell rings.

Student Information Management

SECTION 07

Communication & Notifications

The right message, to the right people, instantly.

- Circulars created, approved and distributed to targeted classes or departments
- Real-time in-app and push notifications powered by Firebase Cloud Messaging
- Document attachments supported on every circular and announcement
- A centralized approval queue keeps pending items moving

WHY IT MATTERS

Instant, targeted communication keeps schools, teachers, students and parents working from the same page.

Parent, Teacher & Student Communication

Mobile App Development

SECTION 08

Transportation Management

Routes, drivers and vehicles, tracked in real time.

- Route creation and configuration with multiple stops per vehicle
- Driver and attendant assignment tied to every route
- Student-to-route allocation with transport fee plan management
- Vehicle utilization and route performance reports on demand

WHY IT MATTERS

Real-time visibility into routes and vehicles improves planning and keeps every student's commute safer.

Transport Management

SECTION 09

Inventory & Store Control

Stock and student store operations, always accounted for.

- Multi-store support with separate, item-level inventory tracking
- Stock movement recorded across inward, outward and inter-store transfers
- Item-to-class mapping for class-specific products
- Student order creation, confirmation and cancellation, fully tracked

WHY IT MATTERS

Clear stock visibility prevents shortages and keeps the student store running smoothly.

Inventory & Store Management

SECTION 10

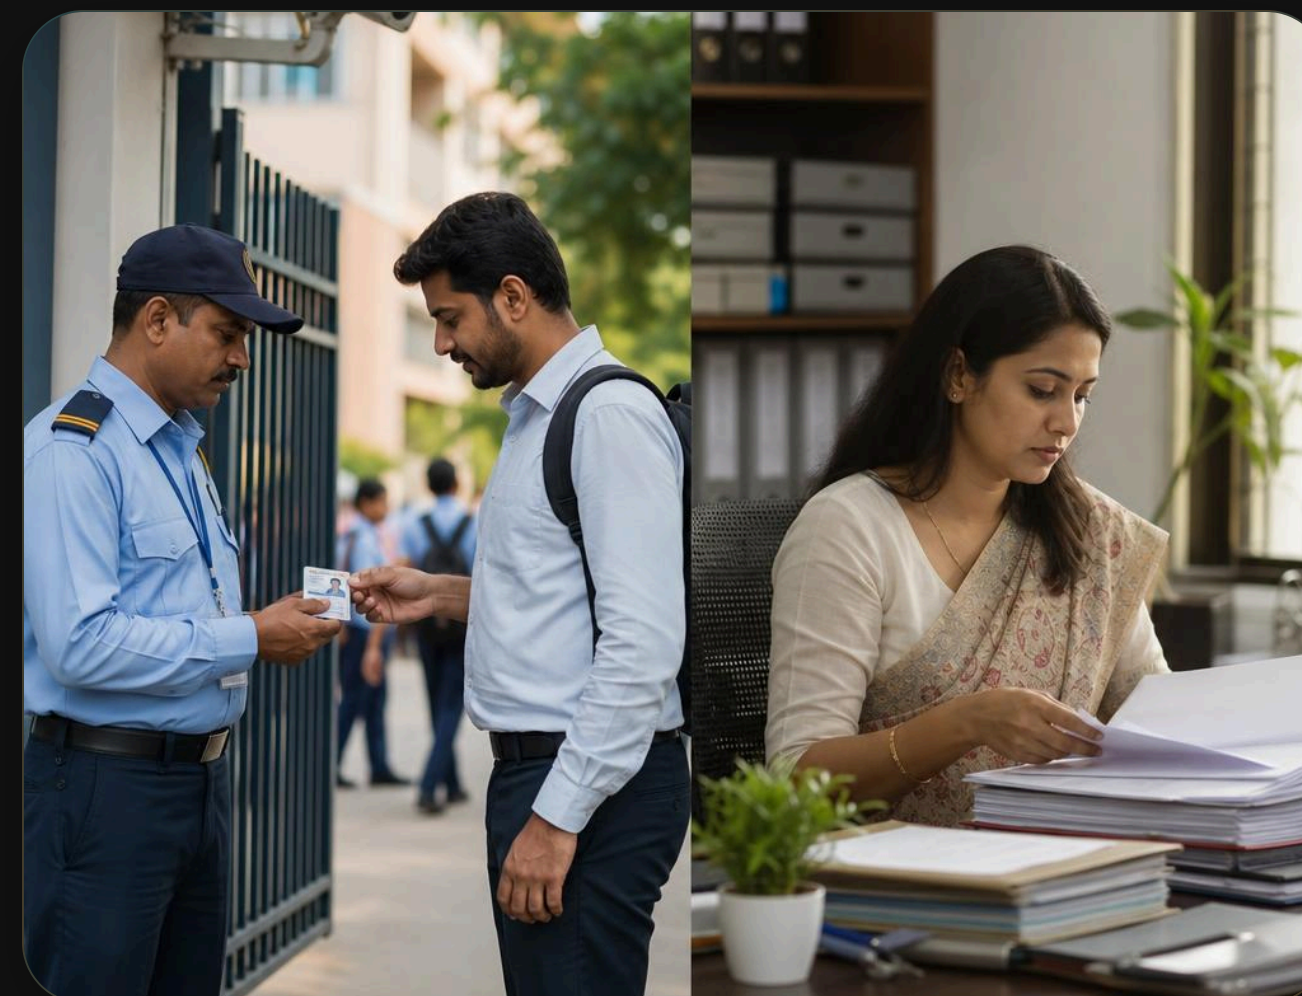

HR/Staff, Student Records & Role-Based Security

Every person, every record, every permission — governed.

- Complete staff records with credentials, class and subject assignments
- Student enrollment, bulk import and profile management in one system
- Ten distinct user roles with a 40+ permission system for fine-grained access
- Leave requests, approvals and the holiday calendar handled in one workflow

WHY IT MATTERS

Centralized records and role-based access protect data while keeping HR, admissions and permissions in sync.

HR & Staff Management
